Index of Contents—1998

ATM (Asynchronous Transfer Mode)
[*also see* **Switches and Switching Technology**]
A Report from NGN 97, Jan, pp. 10–12
Ascend Tackles Multiservice Core, Jan, p. 60
Why They Buy: A Survey of ATM Customers, Feb, pp. 51–52
Voice and Data Integration—Again, Mar, pp. 12–14
Taxes, Taxes, Taxes, Apr, p. 24
Beyond "Best-Effort" Routing, May, pp. 12–14
The Big vs. Managed Bandwidth Debate, May, pp. 20–26
Startups Aim for Multiservice Core, May, pp. 56–59
Is There Hope for ATM Access? June, pp. 12–14
Will Recipe for Networking's "Club Sandwich" Change? July, pp. 14–16
DWDM and New Switching Architectures, July, pp. 24–27
Multiservice Platforms: Access to Profitability, July, pp. 32–27
Choices Multiply for Converging ATM and IP in the WAN, Nov, pp. 20–22
NGN—A Fancy Feast of Networking Ideas, Dec, p. 6

Automatic Call Distributors (ACDs)
[*see* **Call Centers**]

BCR Best-in-Test
Voice-over-IP Gateways: Sounding Good, Feb, pp. 23–29
Industrial-Strength RACs That Really Roll, Apr, pp. 31–39
BCR Best -in-Test: Stepping Up to Gigabit, Aug, pp. 25–30
Layer 3 Switches—Ready to Route, Oct, pp. 34–40
Gigabit Backbones—Bigabit Bandwidth, Sep, pp. 26–32

Briefing
Nail Down Vendors on "Millennium Bug" Now, Jan, pp. 14–16
Tariffs' Grip Stronger Than Ever? Feb, pp. 14–17
Consumer DSL: New Hopes and Promises, Mar, pp. 16–18
Making DWDM Ubiquitous, Apr, pp. 16–18
Global Networks and the U.S.-Centric Internet, May, pp. 16–18
VOIP That Even a Telco Can Love? June, p. 16
Filed Rate Doctrine Is Here to Stay, July, pp. 18–19
The Oncoming Glut of Bandwidth, Aug, pp. 12–14
Avoiding Outsourcing Blues, Sep, p. 14
GTE and the New Industry Realities, Oct, p. 18
Router Startups Betting on MPLS, Nov, pp. 14–16
Why Cable Modems Are Winning, Dec, p. 16

Cable Modems
[*see* **Modems, Cable and 56k**]

Cabling/Wiring
[*see* **Physical Plant**]

Call Centers
[*also see "Internet Call Centers: Revolutionizing the Industry," a sponsored supplement to the November issue*]
CTI and the Web-Enabled Call Center, Feb, pp. 55–59
The Next Wave in Do-It-Yourself Customer Service, June, pp. 37–42
Ten Ways the Internet Will Change the Call Center, June, p. 39
The Call Center Industry: Wired or Tired? Aug, p. 20
Web-Enabled Call Center—Has It Crossed the Chasm? *Voice 2000*, Oct, p. 40
The Virtual Call Center: Key to Customer Service? Dec, pp. 29–32

Career Development
[*see* **Management Issues and Trends**]

Carrier Business and Competition
[*see* **Telecom Deregulation/Competition**]

Carrier Services
[*see* **ATM, DSL, Frame Relay, Internet/VPNs, ISDN, Private Lines** *and* **Voice Services**]

Case Studies
Wall Street Takes Stock of IP Multicast, Jan, pp. 48–52
Making Video Play in the Real World, Feb, pp. 45–48
Vendor Service: Bad and Getting Worse, Apr, pp. 40–42
Bringing SONET to the Enterprise, Apr, pp. 44–48
Gigabit Ethernet Interest Speeding Up, Apr, pp. 59–62
Voice-over-Packet: The Technology at Work, *Voice 2000*, May, pp. 13–17
Smooth Sailing with ISDN, June, p. 48
E-commerce: Impressions from the Trenches, July, pp. 46–47
The Economics of Deploying Videoconferencing, Nov, pp. 43–48
Managing IT Investment: Less Isn't Always More, Nov, pp. 52–55
How Network Managers Spend Their Day, Nov, pp. 56–58

Central Office Equipment
[*see* **Switches and Switching Technology** *and* **Telecom Deregulation/Competition**]

Client-Server Technology
How Thin Clients Lead to Fat Networks, July, pp. 28–31
That Great Sucking Sound—Server Consolidation, Dec, pp. 20–21
Adding Smarts to the Network Cloud, Dec, pp. 39–43

Computer-Telephony Integration
Market Cautious about New Approaches to Voice, Jan, pp. 27–32
CTI and the Web-Enabled Call Center, Feb, pp. 55–59

Consultant's Corner/Kuehn
Don't Expect 1998 to Be a Cakewalk, Jan, p. 66
Everything Is Negotiable, Feb, pp. 64–66
Single Source, Single Bill? No Thanks, Mar, pp. 64–66
Access Reform Hits Your Budget, Apr, pp. 72–74
Communications Management—The Headaches Continue, May, pp. 64–66
Tips on Handling PBX Cutovers, June, p. 66
Africa Telecom—Issues Familiar and New, July, pp. 56–58
Now More Than Ever—Caveat Emptor, Aug, p. 66
Consider a CLEC, Sep, pp. 80–82
Negotiating for Local Service—The Dance Has Just Begun, Oct, pp. 72–74
Websites You May Find Useful, Nov, p. 66
Is Cisco the Next Big PBX Vendor? Dec, pp. 56–58

Directory Services
[*see* **Network Architecture/Design**]

DSL (Digital Subscriber Line)
A Report from NGN 97, Jan, pp. 10–12
Reality Descends on ADSL, Jan, pp. 24–25
Lots of Hurdles for XDSL, Feb, pp. 8–10
Tentative Steps toward New Local Loop Technology, Feb, pp. 42–44
Consumer DSL: New Hopes and Promises, Mar, pp. 16–18
Universal DSL—Run Slower, Run Better, Run Sooner, Mar, pp. 20–26
Can ISDN Sustain Its Momentum? June, pp. 43–48
Slow Roll for DSL, Aug, pp. 47–54
56k Modems: A Bandwidth Bird in the Hand, Oct, pp. 59–62
Why Cable Modems Are Winning, Dec, p. 16

E-Commerce
[*also see* **Internet/VPNs**]
The Next Wave in Do-It-Yourself Customer Service, June, pp. 37–42
E-Commerce: Ready or Not? July, p. 8
Extending the Enterprise: Taking EDI into the Future, July, pp. 43–48
E-commerce: Impressions from the Trenches, July, pp. 46–47
Giving Credit to the Web, July, pp. 49–52
The Call Center Industry: Wired or Tired? Aug, p. 20
The Internet and Web Go Mainstream, Oct, pp. 42–46

Email
[*also see* **Integrated/Unified Messaging**]
Internet Access with No Strings Attached, June, pp. 57–60
New Worldwide Email/Fax Interconnection Standards, *Voice 2000*, Oct, pp. 33–38
Unified Messaging: It's All Just Email, Nov, pp. 37–40

Enterprise Networking/Passmore
Unwired LANs? Still a Dream, Jan, pp. 18–20
LAN Routing Everywhere, Feb, pp. 18–20
High-Speed Token-Ring: Too Little, Too Late? Mar, pp. 36–38
Modeling the Network, Apr, pp. 20–22
The Big vs. Managed Bandwidth Debate, May, pp. 20–26
Network Equipment—The Next Commodity Market, June, pp. 18–20
The Complexity of Policy Networking, July, pp. 20–22
QOS: What's Good Enough? Aug, pp. 16–18
A Host of Mainframe Networking Issues, Sep, pp. 18–20
No Ironclad Guarantees, Oct, pp. 26–28
Choices Multiply for Converging ATM and IP in the WAN, Nov, pp. 20–22
Is IPv4 the "Next Generation" IP? Dec, pp. 18–19

Ethernet
[also *see* **Switches and Switching Technology**]
A Report from NGN 97, Jan, pp. 10–12
Token Ring vs. Ethernet: Rivalry Revisited, Jan, p. 22
Foundry's New Gigabit Ethernet Switch/Routers, Feb, p. 60
Token-Ring's Architectural Benefits for Gigabit Nets, Mar, pp. 32–35
High-Speed Token-Ring: Too Little, Too Late? Mar, pp. 36–38
Gigabit Ethernet Interest Speeding Up, Apr, pp. 59–62
Extreme Networks' Gigabit Server Switch, Apr, p. 68
The Big vs. Managed Bandwidth Debate, May, pp. 20–26
Packet Engines Delivers Big-Time Bandwidth, May, p. 60
Lasting Legacies: FDDI and Token-Ring, June, pp. 33–36
BCR Best -in-Test: Stepping Up to Gigabit, Aug, pp. 25–30
Gigabit Backbones—Bigabit Bandwidth, Sep, pp. 26–32
Cisco's Lineup for GigE, Dec, p. 52

Fax
What's Real, What's Not, *Voice 2000*, Oct, pp. 28–32
New Worldwide Email/Fax Interconnection Standards, *Voice 2000*, Oct, pp. 33–38

FCC
[*see* **Telecom Deregulation/Competition**]

FDDI
Lasting Legacies: FDDI and Token-Ring, June, pp. 33–36

Frame Relay
[*also see* **Switches and Switching Technology**]
Taxes, Taxes, Taxes, Apr, p. 24
Voice-over-Packet—The Game's Begun, *Voice 2000*, May, pp. 2–6
Who's Providing What, *Voice 2000*, May, pp. 38–40
Maturing Frame Relay Makes New Demands, July, pp. 38–40

Gigabit Ethernet
[*see* **Ethernet** *and* **Switches and Switching Technology**]

Groupware
[*see* **Integrated Messaging** *and* **Internet/VPNs**]

Hubs
[*see* **ATM, Ethernet, Switches and Switching Technology** *and* **Token-Ring**]

IMHO
Token Ring vs. Ethernet: Rivalry Revisited, Jan, p. 22
Hardware-based Routers—Maximizing What IP Has to Offer, Feb, p. 12
Taxes, Taxes, Taxes, Apr, p. 24
The Call Center Industry: Wired or Tired? Aug, p. 20
How "Visionaries" Lead Us Astray, Oct, pp. 22–24
Competition for the Local Loop, Nov, p. 18

Industry Trends
Does Moore's Law Apply to Telecom? Not Exactly, Mar, p. 6
Humpty-Dumpty Not Reassembled, But Cloned, Dec, p. 4
NGN—A Fancy Feast of Networking Ideas, Dec, p. 6
Is IPv4 the "Next Generation" IP? Dec, pp. 18–19
On the Horizon: DEN and Policy-Based Networks, Dec, pp. 44–46

Integrated/Unified Messaging
Unified Messaging: It's All Just Email, Nov, pp. 37–40

Interexchange Carriers
[*see* **Telecom Deregulation/Competition**]

International Issues
Global Networks and the U.S.-Centric Internet, May, pp. 16–18
Internet Access with No Strings Attached, June, pp. 57–60
